Definition

REACH

REACH is the abbreviation of Registration, Evaluation, Authorisation and Restriction of Chemicals. The purpose is a strong protection level of human health and the environment.

Substances

Substances are all Substances, preparations or products within the meaning of Article 3, Section 1-3 of the Document mentioned in Chapter „References“, herein referred to as „Substances“.

Statement

MA-Industrie GmbH is a manufacturer of high-quality foam packaging.
The company is located in Germany.

As a downstream user we are liable for information towards our customers. We are not liable for registration of substances. Products which you purchase from MA-Industrie GmbH, do not by definition of REACH, have to be registered. Chemical substances contained in our products, which may possibly be subject to registration, have to be registered by our suppliers.

According to our current state of knowledge, no substances on the candidate list are contained in products on the list with more than 0.1 per cent by mass.

Should we gain knowledge about substances that fall under the REACH regulation in our products, we will inform our customers.

Further, all of our suppliers are asked to provide REACH Conformity Statements regularly.
